

CHANDANA A M

✉ chandanaam94@gmail.com ☎ 9148085092 📍 Bengaluru

CAREER OBJECTIVE

Results-driven Industrial Engineering & Management graduate with strong analytical and process optimization skills. Seeking to leverage lean manufacturing, supply chain management, and data analysis expertise in a dynamic organization. Committed to driving operational excellence and continuous improvement in industrial processes.

EDUCATION

B.E in Industrial Engineering and Management

BMS College of Engineering

Result

7.56 CGPA

12/2021 – 07/2025

Bengaluru

PUC

Vijaya PU College

Result

87.5 %

05/2019 – 07/2021

Tumkur, Karnataka

SSLC

Jnanavardhaka Vidya Mandira

Result

91.52 %

04/2018 – 05/2019

Chelur, Karnamtaka

PROJECTS

Design & Development of Hot Gas Generator for Asphalt Plant

Designed and evaluated hot gas generator concepts in PTC Creo, selecting the most efficient design based on technical requirements. Conducted CFD validation using Ansys Fluent to optimize flow and thermal performance. Honored with the **Best Project Award 2025** for outstanding design and analysis.

Design of Karakuri Kaizen

Designed and developed a simulation model based on **Karakuri principles** to minimize material handling costs and reduce manual movement, enhancing process efficiency through simple, energy-free mechanical solutions.

Ergonomics- Study on comfortness in Bench by Dutch Musculoskeletal Questionnaire

Conducted a cross-departmental survey to assess musculoskeletal discomfort among students, analyzing responses using **Microsoft Excel** to identify patterns in posture-related issues. Evaluated classroom infrastructure and highlighted the correlation between bench ergonomics and pain prevalence, recommending improvements in seating design for departments with inadequate facilities.

3D Printing-Drill jig

Designed and developed a drill jig prototype by creating detailed assembly drawings in **SolidWorks**, generating part views with dimensions, and converting models to **STL files**. Fabricated the prototype using **PLA material** on a 3D printer with 30% infill density to validate design functionality.

PROFESSIONAL EXPERIENCE

Thales Group - THALES INDIA PRIVATE LIMITED

Industrialization Intern

01/2025 – 07/2025

Bengaluru

- Developed an Excel tool to estimate machining time and ROM costs for Turning, Milling, Drilling, and Planing operations.
- Participated in industrial visits to PCB, PCBA, and mechanical manufacturing suppliers in Bengaluru.
- Completed prescribed Thales trainings including Avionics Basics Learning.
- Conducted supplier capability analysis and participated in prototype & mock-up manufacturing activities.

- Created strategic presentations on DFM, DTC, local manufacturing ecosystems, aerospace materials, and certification processes, with a focus on avionics systems and defense applications.

Toyota kirloskar Motors

Manufacturing Engineering Intern

08/2024 – 10/2024

Bidadi, KA

- Acquired hands-on experience in high-volume automotive manufacturing and weld shop operations.
- Conducted MIFC studies and 10-cycle time analysis for data-driven process improvements.
- Standardized work processes to improve operational efficiency and reduce variability.
- Used 5 Whys and the 3M framework (Muda, Mura, Muri) to analyze and eliminate bottlenecks.
- Strengthened expertise in lean tools, industrial engineering practices, and safety-focused culture.

TECHNICAL SKILLS

- | | |
|------------------|-----------------------------|
| • NC Programming | • Arena Simulation Software |
| • Solid Works | • MiniTab |
| • Python | • SQL |
| • MS Office | • Power BI |

EXTRA-CURRICULAR ACTIVITIES

Volunteer at IIIE (Indian Institute of Industrial Engineering)

Volunteered at the **Indian Institute of Industrial Engineers (IIIE) Conference**, assisting with participant registration, coordinating attendee check-ins, and supporting event logistics to ensure smooth conference operations.

Phaseshift (technical Symposium)

Actively volunteered at **Phase Shift**, the college's annual technical symposium, assisting with the management of department stalls and stage coordination. Supported stall setup, participant engagement, and smooth conduct of technical exhibitions, while facilitating stage activities and ensuring seamless event flow.
